

Space bookings for OS+H Asia 2012 is now open!

- A year ahead of the show, exhibitor registration sees strong support from leading international companies

Since its first edition in 1998, OS+H Asia has established itself as a unique platform providing significant impact on the occupational safety and health (OSH) development in Asia.

While it is every organization's priority and responsibility to ensure a safe, secure and healthy workplace, it is Messe Düsseldorf Asia's aim to provide a central and international networking and business forum to exchange latest solutions, applications and technologies for a safer and healthier workplace. OS+H Asia 2012 offers the ideal platform, driven by the sector's leading international exhibition for Personal Protection, Security and Health at the Workplace, **A+A 2011** organized by Messe Düsseldorf.

Looking forward to another successful event in 2012, Shirley Lim, General Manager of Messe Düsseldorf Asia said: "With its 8th edition and an increase in visitorship that has more than doubled over the years, OS+H Asia 2012 will continue to be the leading occupational safety and health forum in Southeast Asia. And after an extremely successful exhibition in 2010 with more than 5,000 visitors from over 40 countries, we will continue to increase our promotional activities in the region to attract even more OSH practitioners from Asia, thus establishing OS+H Asia as the commanding OSH event in Asia."

Nearly one year before OS+H Asia 2012 a number of companies have already confirmed their participation in next year's exhibition, one of which is BIS International the exclusive distributor of Krushers Safety Footwear and CIG. "With our established track record of supplying quality personal protective equipment and safety solutions, BIS is in a strong position to support companies in their mission to create a safer work environment according to their specific needs," says Chong Zhi Cheng, Managing Director of BIS International.

As a strong supporter since OS+H Asia's inception in 1998, leading PPE provider Kimberly-Clark has also secured their booth space at the exhibition, presenting their world renowned brands, such as KLEENEX®, SCOTT®, KLEENGUARD* or JACKSON SAFETY*. James Wong, Market Segment Manager – Malaysia/Singapore, Kimberly-Clark Professional looks forward to participating at OS+H Asia 2012 as it provides "a platform to introduce new innovative solutions and our various programmes."

Messe Düsseldorf Asia is a member of

As the leading broad line supplier of work safety and marine safety products, Durasafe will exhibit for the first time at OS+H Asia 2012, seeing it as an ideal regional showcase to feature their range of products, from brands that include Bradley, MSA, Maritime Progress, Uvex or Wilson. "One of our main objectives to exhibit at next year's exhibition is to launch new safety products and services as well as to meet new customers in the region", said Jefferson Soh, Managing Director of Durasafe Pte Ltd.

QMT Industrial & Safety Pte Ltd, one of the Accredited Training Providers for the Work-At-Height course for supervisors by the Singapore Ministry of Manpower, has also confirmed their participation in OS+H Asia 2012. Its director Ronnie Tan commented: "The unique combination of having an extensive product range of equipment and the capacity to provide adequate and cutting-edge training and consultancy service has shaped QMT to be an industry leader in Singapore."

For the second time **The Singapore WSH Conference** will also be held concurrently with OS+H Asia 2012. Organized by the Singapore Workplace Safety and Health (WSH) Council and Ministry of Manpower the two-day conference brings together senior government officials, heads of management and WSH professionals from diverse industries.

In 2010 OS+H Asia was a record-breaking exhibition in all aspects as it saw a marked increase in exhibitors and visitors compared to previous editions. With 95% of visitors finding it important to visit OS+H Asia 2010, the exhibition set a new benchmark and proved to be the must-attend event for the occupational safety and health sectors in Asia.

Concurrent Exhibitions

Alongside OS+H Asia 2012, Messe Düsseldorf Asia will also organize **MEDICAL FAIR ASIA 2012**, the 9th International Exhibition on Hospital, Diagnostic, Pharmaceutical, Medical & Rehabilitation Equipment & Supplies, which is sponsored by the Singapore Ministry of Health, and **MEDICAL MANUFACTURING ASIA 2012**, which focuses on manufacturing of medical devices and equipment, jointly organized by Messe Düsseldorf Asia and Singapore Precision Engineering & Tooling Association (SPETA).
