Volume 1

 TIPREX

3rd Thai International
Plastics and Rubber Exhibition

BITEC • Bangkok
Bangkok International Trade
& Exhibition Centre

31 Aug - 3 Sept 2011

imagine
a world without
plastics and rubber
the most innovative materials of the 21st century

opening hours:

10.30am - 6.00pm
admission is free for
business and trade visitors
only by registration.

Pre-register your visit
at www.tiprex.com

Jointly Organized by :

Thai Plastic Industries
Association

facts at a glance

2006
2009
2011

a biennial trade fair, since its debut TIPREX has attracted more than 14,000 visitors and buyers from 50 countries.

GLOBAL exhibitors

with more than **70%** coming from Austria China Germany India Italy South Korea Malaysia The Netherlands Singapore Switzerland Taiwan United Kingdom Vietnam

NETWORK across industries

Experience the synergy of TIPREX and PACK PRINT INTERNATIONAL (www.pack-print.de) concurrently and under one roof.

BUSINESS matching

Optimize your visit with our Business Matching Service that links you to manufacturers, vendors, and suppliers. To benefit from this service, register online at www.tiprex.com

EXTRA night EXTRA smile

A special privilege where the 3rd night's stay is complimentary; an incentive by the Thailand Convention & Exhibition Bureau (TCEB) to bring more value to you and your business.

TIPREX

3rd Thai International Plastics and Rubber Exhibition

Exchange business ideas and creative technologies from the world of plastics and rubber at TIPREX 2011.

Jointly organized by Messe Düsseldorf Asia, Thai Plastic Industries Association and FTI - Plastic Industry Club, TIPREX sees a host of exciting new developments and innovations in 2011.

The participation of more than 200 exhibitors from some 20 countries, including national pavilions and groups from Austria, China, Italy, Singapore, Taiwan, and Vietnam reinforces the industry's choice for TIPREX as the leading trade fair for the plastics and rubber industries in Southeast Asia.

Bring you business to the next level of growth at TIPREX 2011 – the industry platform for solutions, networking and exchanging business ideas.

TIPREX 2011 welcomes AFPI Council Meeting and APF Forum Delegates!

The Plastic Industry Club, the Federation of Thai Industries (FTI), will be hosting the 14th Term ASEAN Federation of Plastic Industries (AFPI) Council Meeting and 21st Asia Plastics Forum 2011. The conference will feature updates on latest developments, issues and happenings in the plastics industry of the ASEAN and Asian countries such as China, India and Japan. The delegates will also attend TIPREX 2011.

TIPREX 2011 VALUE-PACKED Programme at BITEC

Organizer : Asian Plastic News

1 Sept APN Plastics in Automotive Applications 2011 Conference

Contact : Ms Annie Chan • annie@apn.com.sg

Organizer : Chatsworth Associates Pte Ltd

30 Aug / 31 Aug Rubber Technology

2 Sept / 3 Sept Plastics Technology

Contact : Dr Philip Adams • padams@chatsworth-group.com

Organizer : Global Connections PLC

31 Aug Automotive Market & Applications

1 Sept Elastomers Market & Applications

2 Sept Packaging Market & Applications

3 Sept Bio Plastic Market & Applications

Contact : Mr Aikachai Sirijantanan • aikachais@gc.co.th

Organizer : Plastics & Rubber Asia / Chatsworth Associates Pte Ltd

1 Sept / 2 Sept New Developments in Thermoplastic Elastomers

Contact : Dr Philip Adams • padams@chatsworth-group.com

For more details, log on to www.tiprex.com

CONAIR PACIFIC EQUIPMENT PTE LTD

The Conair Group is the world's leading supplier of auxiliary equipment for plastics processors, including resin drying systems, blender, feeder and material -conveying systems, temperature-control equipment and granulators. Extrusion solutions include line-control systems, film and sheet scrap-reclaim systems and downstream equipment for pipe and profile extrusion. Over 450 individual products solve problems, save energy, cut waste and are easy to use. The industry's most complete product line, top-flight engineering and unbeatable service, all combine to give processors the confidence they need to succeed in today's competitive global marketplace.

ADVANCED PLASTIC INTERTRADE CO LTD

NEW

The company is the sole agent of leading European machine manufacturers / accessory / additives / purge compounds in Thailand. They provide sales and services for film blowing lines, extrusion control systems, web inspection & control systems, air & water chillers, solvent recovery systems, corona treaters & perforate units, thermal cleaning machines, additives for blow film process, purge compound and related products.

CONCEPT LASER GMBH

Regarded as a pioneer in the field of generative metal laser fusing technology since 2000, the company, with the LaserCUSING® process, is involved in all different sectors of industry. As a renowned supplier to the plastics-processing industry and aluminium die-casting, Concept Laser benefits from many years of experience. The use of mould inserts with conformal cooling delivers quality optimization while reducing the unit costs at the same time.

Represented by PMC Technology Co Ltd

BAUSANO & FIGLI SPA

Producers of counter rotating twin screw extruders & extrusion lines. They design and manufacture extrusion lines that are highly efficient and user friendly and work closely with the customer to provide turn key solutions before and after sales. Their ISO 9000 quality certification guarantees that every step of the design and manufacturing process is checked by their quality system control. Their product range includes PVC twin-screw extruders and complete extrusion line for the production of PVC / PE / PP pipes, spiral PVC / reinforced PVC tubes, PVC medical pockets and tubes, profiles for building, industrial use, windows & door frames, granulation, scraps recovery and polywood (wood composite) granulation & profiles.

GLOBAL CONNECTIONS PLC

Global Connections Public Company Limited is the distributing agent of plastics, petrochemicals and additives, which are used in petrochemical and plastic transformation process. Their vision is to be the best partner for solutions and services in industrial raw material supply. The company is the distributing agent for 27 domestic and foreign companies who are leading in petrochemical and plastic in terms of production capacity and technology.

BRÜCKNER MASCHINENBAU GMBH & CO KG

Breakthrough technologies for the production of flexible and rigid plastics film.

A worldwide leading supplier of film production lines: mono- and bi-axial film stretching lines, complete turnkey plants, shrink film lines, stretching lines for optical films, laboratory & pilot lines, net & geo grid lines as well as a range of machinery covering cast film and sheet extrusion, focusing on the rapidly growing CPP and PET markets and many more. Today, more than half of the accordant investments within the bi-oriented film industry are spent on Brückner equipment.

INTERNATIONAL RUBBER PARTS CO LTD

Manufacturing rubber products for various industries, the company has more than three decades of experience and technology. Their customers include some leading OEM manufacturers of automobiles, motorcycles, electrical appliances, water works, machinery and the construction industry.

Achieving ISO 9001:2000 and ISO/TS 16949:2002 and ISO 14001:2004 status provides a quality platform, total quality management, extensive and continuous research and development, and a state-of-the-art plant ensures consistency and the highest product quality.

BUSS ASIA PACIFIC PTE LTD

The BUSS Kneader is a highly versatile compounding system capable of demanding mixing tasks and with excellent references in the plastics, aluminium, chemical and food industries. The latest generation of BUSS Kneaders, quantec® and MX, represent highly developed machine concepts based on the proven reciprocating screw working principle.

KABRA EXTRUSIONTECHNIK LTD

Kabra Extrusiontechnik - India's first plastic machinery company to acquire stake in an overseas company.

Part of the Kolsite Group of Companies, they are India's largest manufacturer and exporter of plastic extrusion equipment. They are also leaders in the production of pipe, profile & blown film machinery. KET commands about 40% market share of its product range in India and has over 8,000 installations in 65 countries worldwide. Having recently acquired a 15% stake in Gloucester Engineering Co, (GEC), USA, they are well prepared to reach out to the customers in North & South America and European markets.

CHANGZHOU YONGMING MACHINERY MANUFACTURING CO LTD

NEW

As a professional manufacturer of whole line machines for plastic woven sacks, jumbo bags and tarpaulins, the company can provide turn-key projects at the customer's request. Their main products range from plastic extrusion tape line, plastic circular loom, plastic extrusion lamination line and auxiliary machines. They continue to innovate and upgrade their technology, leading the way of constant development in the plastic weaving machinery industry.

Represented by Tian Hoe Industry Co Ltd

KIEFEL GMBH

NEW

KIEFEL develops designs, manufactures and supplies machines and plant systems for the processing of plastics, and provides a range of directly-related services. The company offers core expertise in the fields of forming and joining technology.

As a leading supplier of technology to the automotive industry, the company also specializes in the manufacture of vehicle interior-trim components made of plastic. For producers of bags for medical use, they offer fully automatic plastics welding lines based on HF or thermo-contact technology, along with high-performance automatic pressure forming machines and cup forming equipment.

KRAUSSMAFFEI TECHNOLOGIES GMBH

Injection molding machines from KraussMaffei's AX series feature optimized double toggle design, efficient servo motors, easy action of its mechanical systems, trailblazing control systems and absolute positioning accuracy meet all the requirements of resource-efficient production, high repeatability, precision molding and highly dynamic responses. The energy consumption on AX machines can be up to 60% lower than with hydraulic machine concepts. AX machines enable processors to work flexibly and reliably, and keep unit costs low – even for slow cycling applications.

LMS TECHNOLOGIES PTE LTD

LMS is an established engineering trading company involved in the distribution of scientific instrument for material science and polymer technology in Southeast Asia. They exclusively represent market leaders such as OCS, Dynisco Instruments, etc. OCS is the world's leading supplier in optical quality control system for on-line measurement of contamination, fisheye, gels, shape and size of polymer film, pellets and powder. Dynisco Instruments is the world's leading supplier for instrumentation and controls in the polymer processing industries.

MAGUIRE PRODUCTS ASIA PTE LTD

The Perfect Blend of Simplicity & Control

Founded in 1977, Maguire is a global technology leader in material management systems for plastics molding, extrusion, and compounding. Headquartered in Aston, Pennsylvania, U.S.A., the company has five production facilities in Aston and in Smithfield, Rhode Island manufacturing gravimetric blenders, granulators, liquid color pumps, volumetric auger feeders, vacuum dryers, venturi loaders, resin dryers, controllers, level sensing alarm systems, networking software.

PACK ALL PLASTIC CO LTD

With more than 20 years experience in the industry and a strong local and international reputation, Pack All Plastic is a leading distributor of industrial machinery for manufacturing plastic products, rubber and aluminium.

An importer, distributor and exclusive agency for leading global machineries, the company specializes in providing high performance machines, equipments, tools and related products including printing reliable after sales service for the full range of plastic, rubber, recycle and aluminium profile processing.

PACKSYS GLOBAL (SWITZERLAND) LTD

A member of Brückner Group, they are a Swiss company manufacturing machinery for the packaging industry. PSG produces machines for the manufacture of laminate tubes, extruded plastic tubes, aluminium tubes, monobloc aerosol can, ROPP aluminium caps and plastic caps. PSG also produces up to 9 colour offset printing machines for metal caps, plastic tubes and aluminium tubes and monobloc aerosol cans.

PSG manufactures in Switzerland as well as in Thailand (Rayong) with local offices in Switzerland, India, Thailand, Brazil and representation in Japan and China and other countries as well.

PIOVAN ASIA PACIFIC LTD

A leader in terms of market share and sales in the auxiliary equipment industry, they are one of the few companies in the world able to provide the full range of auxiliary machines. Some of their latest product innovations include Genesys, the only innovative, auto-adaptive resin drying system available today designed to deliver the lowest energy consumption ever; Lybra, the new line of dosing units with features such as a high level of accuracy, advanced control and a straightforward user interface; MDW Series Gravimetric Blenders, a range that assures absolute precision, repeatability, simple utilisation in all application fields and can be combined with injection and blow moulding machines as well as extrusion lines.

PLASTECHNIC MARKETING PTE LTD

Providing total solutions for material handling and cooling systems, Plastechnic will be exhibiting the latest Honey Cone design in drying technology which is compact, highly efficient, energy saving and lower dew-point from VISMEC. Also on display is Germany's latest innovation in Real-Time Process Monitoring from WAGO and the NEVACON® Needle Valve Control System.

PMC TECHNOLOGY CO LTD

NEW

They are leading suppliers of mechanical and automation motion control, metrology, test equipment and optical products to various markets especially in the process plastic industry. Their focus is on providing quality products and excellent support, and are capable of performing their own installation, providing application support, hands-on training for users and field services for all their equipment.

Joint venture with SimpaTec Engineering Asia Co Ltd

RIECKERMANN (THAILAND) CO LTD

Services for the plastics & rubber industries

Activities:

- Supply of machines, industrial plants and accessories
- Representative of machine manufacturers
- Installation and service of machines
- Authorized spare parts supply
- Distributor of Siemens PLC systems and parts

Dedicated sales and service engineers ensure that the machines supplied are working to the full satisfaction of the client.

SCANTECH SOLUTIONS SDN BHD

As manufacturers of thickness and weight gauging systems, they were the first company to introduce low-energy X-Ray sensors for plastic materials, such as biax, cast, lamination coatings, and non-woven materials. Their automatic profile control system is one of the fastest and most stable. Guangzhou SCANTECH Electronic Measuring Equipment Co Ltd manufactures and sells on-line measurement equipment for monitoring and automatic control of most flat web production processes (BOPP, BOPET, BOPA, BOPS, CPP, CPE, PC, PET, PP, PMMA, PVB, EVA, PE, non-woven, paper...).

SCG CHEMICALS CO LTD

NEW

As one of the largest integrated petrochemical companies in Thailand and a key industry leader in the Asia-Pacific region, the company manufactures and supplies a full range of petrochemical products. This ranges from upstream petrochemicals such as Olefins, intermediate petrochemicals such as Styrene monomer, PTA and MMA, to downstream petrochemicals.

SCHENCK PROCESS GMBH (SINGAPORE)

NEW

Featuring a double shaft and vertical agitator, the MechaTron® Min from Schenck Process is a gravimetric feeder with a delivery rate between 100 g/h and 10 kg/h, an ideal solution for feeding very small volumes of powder. Designed to allow quick dismantling for cleaning and replacement of the discharge devices, it has two different feed hoppers available and comes with integrated measurement, control and electronics. Typical applications include laboratory and test facilities for feeding extruders, mixers, mills and granulators.

SHANG TA CHIA INDUSTRIAL CO LTD

Devoted to developing and innovating within the field of extrusion machinery in Taiwan since 1984, their products are widely involved in PP / PC Hollow Profile Sheet, PC / PMMA / ABS / PS / PET / PP / PE Sheet, PP / PC / PVC Corrugated Sheet, PP / 3D Stationery Sheet and PP / PE Film Extrusion Lines. The applications are popularly used in packaging, building, food containers, decoration, luggage and protective purposes, etc. Shang Ta Chia Industrial Co Ltd is a good choice for those seeking a long-term partner.

SIMPATEC ENGINEERING ASIA CO LTD

A well established dynamic company in the field of process and part optimization for the plastic processing industry which includes injection molding, thermoforming and blow molding. Their consulting services as well as the software tools Moldex3D, T-Sim and B-Sim have made SimpaTec a well known partner for the whole plastics industry. Their customers include major OEMs in the automotive and supplier industry.

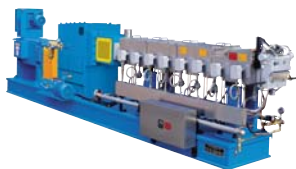

Joint venture with PMC Technology Co Ltd

SINGAPORE PLASTIC INDUSTRY ASSOCIATION (SPIA)

The Singapore Plastic Industry Association (SPIA) is a non profit-making trade organization, officially formed in 1989 and is currently the sole representative body of the plastic industries in Singapore. SPIA's membership comprises of multinational organizations as well as large, medium and small enterprises that represent virtually every aspect of the plastic industry.

SM PLATEK CO LTD

Product range includes twin screw extruders for compounding and masterbatching. They have a market share of over 60% in Korea and supply 820 lines to about 180 customers in 22 countries. TEK-MHS Series are the most advanced models with the performance of super high speed and high torque. It is particularly suitable for engineering plastic requiring filling, reinforcing and alloying operation with a capacity of 30~ 4,500 Kg/Hr. Models: TEK 25/30, TEK40MHS,51, 70, 75, 92, TEK95MHS.

SUKANO SDN BHD

Sukano's portfolio of functional and optical masterbatches for the plastics industry reflects their "PureConcentration" commitment: to always deliver the very best. All their products combine precision and function with technical innovation, making many Sukano additives the industry gold standard.

Their innovative masterbatches, compounds & blends are designed to improve the functional and optical properties of bio and oil based plastics in rigid films, thin films/coatings, sheets, containers, filaments and biopolymers.

TAIWAN ASSOCIATION OF MACHINERY INDUSTRY (TAMI)

TAMI is a group of industrial machinery manufacturers. The organization was set up to promote and build the machinery sector through concentrated efforts of the industry's individual enterprises. TAMI provides information and guidance to the government, and takes part in government economic programs for the collective benefits of the machinery business.

THE TAIWAN PLASTICS INDUSTRY ASSOCIATION

The Taiwan Plastics Industry Association has been established for 53 years. They provide plastic production, hold business seminars, organize foreign exhibitions and trade promotion missions, and arrange investments and cooperation for plastics technology. They also provide production for computer parts, electronics, communication; packing materials, daily used products (cups, containers, etc), industrial products and exercise related products, additives and modifiers for plastics, composite materials, engineering plastics and green products.

TOOL-TEMP ASIA PTE LTD

Precision made in Switzerland

Their newly built, modern, state-of-the-art manufacturing and R&D facilities boasts 20,000 sq metres of production space to cater for its annual production of more than 8,000 units covering industries in the plastic molding, metal die casting, chemical, pharmaceutical as well food & beverage sectors. The company manufactures oil, water pressure, two-circuit, hot & cold circuit and water temperature control units, air cooled water chillers and water cooled water chillers.

VETAPHONE ASIA PTE LTD

As the inventor of Corona treatment and with more than 60 years of experience, Vetaphone is known to be an engineering company manufacturing standard equipment and customizing solutions for customers whereby actual problems are solved at the customer site. The company is one of the technical leaders within the industry for surface treatment, and is proud to say that it solves all challenges that it is given. With many added unique features, their equipment has been developed as solutions for actual problems in factories all over the world. An example of this is the Quick Change system as shown on the picture.

WIDOS TECHNOLOGY (ASIA PACIFIC) PTE LTD

NEW

Established for more than 18 years, WIDOS Technology (Asia Pacific) Pte Ltd is one of the market leaders in supplying high quality plastic welding machines, welding extruders, electrofusion machines, hot air welding tools, sheet welding machines, pipe sawing machines, torque wrenches & hand tools.

imagine a world without plastics and rubber

31 Aug - 3 Sept 2011

3rd Thai International
Plastics and Rubber Exhibition

BITEC • Bangkok
Bangkok International Trade
& Exhibition Centre

pre-registration form

- Please complete entire form.
 - Visitors from Thailand, please fax to: **(66) 2204 2586-7**
 - Other visitors, please fax to: **(65) 6337 4633**
- Or pre-register online at
www.tiprex.com

Note:

1. Pre-registration by fax will close on **15 August 2011**
2. Please photocopy this form if you need more copies
3. Admission for trade visitors by registration only
4. Dress code : Office / work attire
5. Exhibition hours : 10.30am - 6.00pm

Please fill in details or attach business card*

Yes No

Will you also visit **PACK PRINT INTERNATIONAL 2011?**

Yes No

ABOUT MY COMPANY

A. Nature of Business *(Please tick one only)*

- 01 Manufacturer / Producer
 02 Distributor / Representative
 03 Trader / Importer & Exporter / Wholesaler
 04 Government
 05 Service Provider
 06 Others (please specify)

B. Business Profile *(Please tick one only)*

- 01 Original Design Manufacturers (ODMs)
 02 Original Equipment Manufacturers (OEMs)
 03 Contract Manufacturers (CMs)
 04 Mould / Tool & Die Manufacturers
 05 Moulders
 06 Extruders
 07 Converting Processors
 08 Services
 09 Others (please specify)

C. Company's Main Activities *(You may tick more than one)*

- 01 Automotive / Transportation
 02 Building / Construction
 03 Chemical / Petrochemical / Refining
 04 Consulting Services
 05 Electronics
 06 Electrical / Mechanical Engineering Services
 07 Household / Leisure Goods
 08 Hospitality Services
 09 Information Technology
 10 Medical / Pharmaceutical
 11 Mould & Die
 12 Offshore & Marine
 13 Packaging
 14 Plastics & Rubber
 15 Printing
 16 Recycling
 17 Telecommunications
 18 Others (please specify)

- 03 Consultant
 04 Maintenance / Quality Control
 05 Research & Development
 06 Purchasing / Procurement
 07 Engineering / Design Management
 08 Production / Manufacturing Management
 09 Sales & Marketing Management
 10 Others (please specify)

B. Your Product Interest

B1 Raw Materials

- 01 Additives / Composites / Compounding Ingredients
 02 Commodity Thermoplastics
 03 Engineering Thermoplastics
 04 Rubbers / Elastomers
 05 Others (please specify)

B2 Machinery / Equipment

- 06 Blow Moulding / Injection Stretch Blow Moulding
 07 Compounding
 08 Compression & Transfer Moulding
 09 Extrusion Blown / Cast Film
 10 Injection Moulding
 11 Profile Extrusion / Sheet Extrusion
 12 Recycling
 13 Rotational Moulding
 14 Vacuum / Thermo Forming
 15 Rubber Related Machinery & Equipment
 16 Others (please specify)

B3 Ancillaries / Auxiliaries

- 17 Automation, Robotics & Parts Handling
 18 Blending / Mixing / Feeding / Dosing
 19 Bulk Storage & Material Handling
 20 Heating, Cooling & Temperature Control
 21 Hot Runner Systems
 22 Measuring Control & Test Equipment
 23 Printing, Laser Marking
 24 Size Reduction, Crushers, Scrap Reclaim
 25 Tooling (Mould, Die, Components)
 26 Welding
 27 Others (please specify)

B4 Products / Services

- 28 CAD / CAM / CAE & Other Software
 29 Contract Manufacturing / Assembly Services
 30 Material Formulating / Compounding
 31 Plastic Injection Moulding
 32 Rubber Injection Moulding
 33 Others (please specify)

C. Purpose of Your Visit *(You may tick more than one)*

- 01 Gather Information
 02 To Purchase
 Likelihood of Purchase
 immediate
 within six months
 within one year
 not known at this point in time
 03 Seek Representation
 04 Visit Suppliers
 05 Evaluate for Future Participation
 06 Others (please specify)

D. How Did You Find Out About This Event?

- (You may tick more than one)*
 01 Invitation from Organizer
 02 Invitation from Exhibitor
 03 Newspapers
 04 Direct Mailing
 05 Trade Publications
 06 Colleagues
 07 Associations
 08 Internet
 09 Others (please specify)

E. Your Role in Purchasing *(You may tick more than one)*

- 01 Final Decision
 02 Significant Influence
 03 Initial Recommendation
 04 Research New Products
 05 Not Applicable

F. Are You Interested To Receive Information On:

- (You may tick more than one)*
- 01 **K 2013** Exhibiting Visiting
(Düsseldorf, Germany)
- 02 **M-PLAS 2011** Exhibiting Visiting
(Kuala Lumpur, Malaysia)
- 03 **INTERPLASTICA 2012** Exhibiting Visiting
(Moscow, Russia)
- 04 **P&RV 2012** Exhibiting Visiting
(Ho Chi Minh City, Vietnam)
- 05 **INDOPLAS 2012** Exhibiting Visiting
(Jakarta, Indonesia)
- 06 **ARABPLAST 2013** Exhibiting Visiting
(Dubai, UAE)
- 07 **TIPREX 2013** Exhibiting Visiting
(Bangkok, Thailand)

ABOUT MYSELF

getting there

By BTS (Skytrain)

The terminal station (On Nut Station) is only 4 km away from BITEC.

By Car

Directly linked by the expressway to Centre Business District (10 km), the centre is accessible via 3 entrances: 1st and 2nd are along Bangna-Trad Road (km.1) and the 3rd entrance is along Sukhumvit Road via expressway.

By Bus

BITEC can be reached by bus (No.11, 13, 23) with a bus station conveniently located in front of the centre.

By Shuttle Bus

Free Shuttle Bus Service is provided between On-Nut Station and BITEC. Schedule will be available on-site.

Taxi

For your convenience and comfort, Taxi service will be available for your pre-bookings at Business Centre. The Taxi stand is also available by drop off area in front of EH 101.

EXHIBIT PROFILE

- Machinery & Equipment for the Plastics & Rubber Industries
- Semi-finished Products, Technical Parts and Reinforced Plastics
- Raw Materials, Auxiliaries
- Services for Plastics and Rubber Industries

VISITOR PROFILE

- Manufacturers, Processors and Users of Plastics and Rubber Products
- Raw Material Processors
- Trade Associations / Service Organizations
- Management, Technical & Production, Sales & Marketing & Purchasing Personnel
